

Who are we?

IFL Polska (www.iflpolska.pl) is an organization that promotes Christian values in our country. We have been operating in Poland since 2009, officially as the IFL Polska Foundation since 2010. We are part of the American IFLM (**Insight for Living Ministries**) mission, present on 4 continents (outside Africa... for now). Our goal is to bring spiritual support and help to those who need it. We believe that the Gospel we preach has a practical dimension. That is why, in the face of the challenge of Russia's invasion of Ukraine and the influx of refugees, we want to help those who need our help.

What do we want to do?

We are "marathon runners", we are interested in long-term and comprehensive help. **We are collecting funds to finance the stay of single mothers, victims of the war in Ukraine.** They will be located in apartments rented by us, for a period of 1 year. We are not able to help everyone, but we want to comprehensively help - within the framework of the accumulated funds - mothers, **providing them with a minimum of security in their own corner** (rented apartment) and with **modest monthly financial support**.

One of the Members of the Management Board of the IFL Poland Fund for Ukraine is a pastor from Ukraine, who will provide pastoral assistance to the Persons covered by our help.

You can help

We invite you to participate in this program. The more resources we collect, the more single mothers will receive material and pastoral help. Refugees struggle with fear of the future, feelings of loneliness and confusion.

Every penny counts.

You can help by depositing into our account:
